SKILLS

Adobe Design Programs

Illustrator

Photoshop

InDesign

After Effects

Adobe XD

Programming Skills

HTML

CSS

Bootstrap

JavaScript

Angular

MongoDB

I use my web development skills and design background to create websites and applications that are visually stunning and leave a positive impression on users. Whether it be helping kids from low income communities with homework or helping my peers with web development issues or academic problems, I am always ready and willing to lend a helping hand to anyone who needs it.

EDUCATION

CALIFORNIA STATE UNIVERSITY, FRESNO
Aug 2014 - Present

- Taken general education courses as well as design and programming courses
- Applied and accepted into the B.F.A. program

GEEKWISE ACADEMY
May 2017 - Present

- Learned several programming and development languages including: HTML & CSS, JavaScript, Angular, and MongoDB
- Currently collaborating with a team to build a web application

WORK EXPERIENCE

CALIFORNIA TEACHING FELLOWS FOUNDATION
Aug 2015 - Dec 2017

- Led and managed groups of 20+ students
- Worked with kids of varying elementary school age
- Prepared creative and engaging lessons and activities for kids, which often involved wed development and programming concepts
- Helped low income students with homework and other non-academic issues they faced
- Often helped supervisor with after hours assignments and projects
- Did my best to make sure program ran smoothly when supervisor was out
